

Emergency Appeal for Zimbabwean Academics

Train the Future and Invest in an Academic

We appeal to all those who are concerned for the future of Zimbabwe and its Higher Education System, which was once one of the best University systems in the world. Academics who have remained in Zimbabwe and those in the diaspora are making dedicated efforts to learn – and teach others – under very difficult circumstances. They need our help to ensure that their special knowledge and abilities can best contribute to the rebuilding of Zimbabwe and its Education system. Zimbabwe’s teachers and academics have world class talent – but they need our help. Investing in Zimbabwe’s academics is an investment in a global future.

Your donations will help CARA to:

- Provide grants for those wishing to ‘re-qualify’ and ‘up skill’ in areas where Zimbabwe is lacking critical resources, academic and professional support.
- Identify and support hosting opportunities in universities and scientific institutions.

If you would like to make a donation, please click on the ‘[DONATE NOW](#)’ button or paste this link into your browser:
